

“TAHITIAN NONI® Juice is The Greatest Health Drink That I Know Of”

I truly believe the Tahitian Noni® Juice is the best on the market. I have used it 17 years and have found the health benefits are really great. I believe you may be well pleased with this product and also may be happy with their excellent service. I have found this company to be one of great integrity.

I have told many friends what the juice has done for me, so they are now on it, I will always take this juice and never again substitute for one that may cost less, because I also have tried others that did not produce the same results as this Tahitian Noni® juice did.

Tahitian Noni® is of the most excellent quality. It is sealed in heavy glass bottles for freshness. One lady called me after two years on this juice, and said she had switched to a less expensive brand. She said she had made a mistake by switching, so she returned to Tahitian Noni® Juice.

I am offering this Tahitian Noni® juice to you at my wholesale cost. Here is the toll-free number: 1-800-445-2969. By using my ID number (160-311) you can get it at the wholesale cost also. Or, you can tell the company you want to pay the wholesale free to sell, and you get a commission for selling. I am Emily Dotson, and I decree that my statements are true.

If you would like to know more about this wonderful product and the company or if you have any questions, you may call my office at 336-969-4659. If I am not available, you can leave your name and number, and I will call you back. If I can be of any further service, please don't hesitate to contact me because I care about your health.

May God Bless You,
Emily Dotson
